

TWO FOOT SMOKE

King Krishna Dev Rai was always amazed by the intelligence of his minister Tenalirama. However this caused envy amongst his other ministers.

My Lord, you
always give chance to Tenalirama.
Give us a chance and we will prove
that we too can be as intelligent
as Tenalirama.

I do not feel you
all can match the intelligence
of Tenalirama.

Give us a chance
and we will prove our
intelligence

The king immediately started to think of giving his ministers a challenge.

Give me two feet of smoke of this insence stick.

The ministers where confused. They discussed but had no solution.

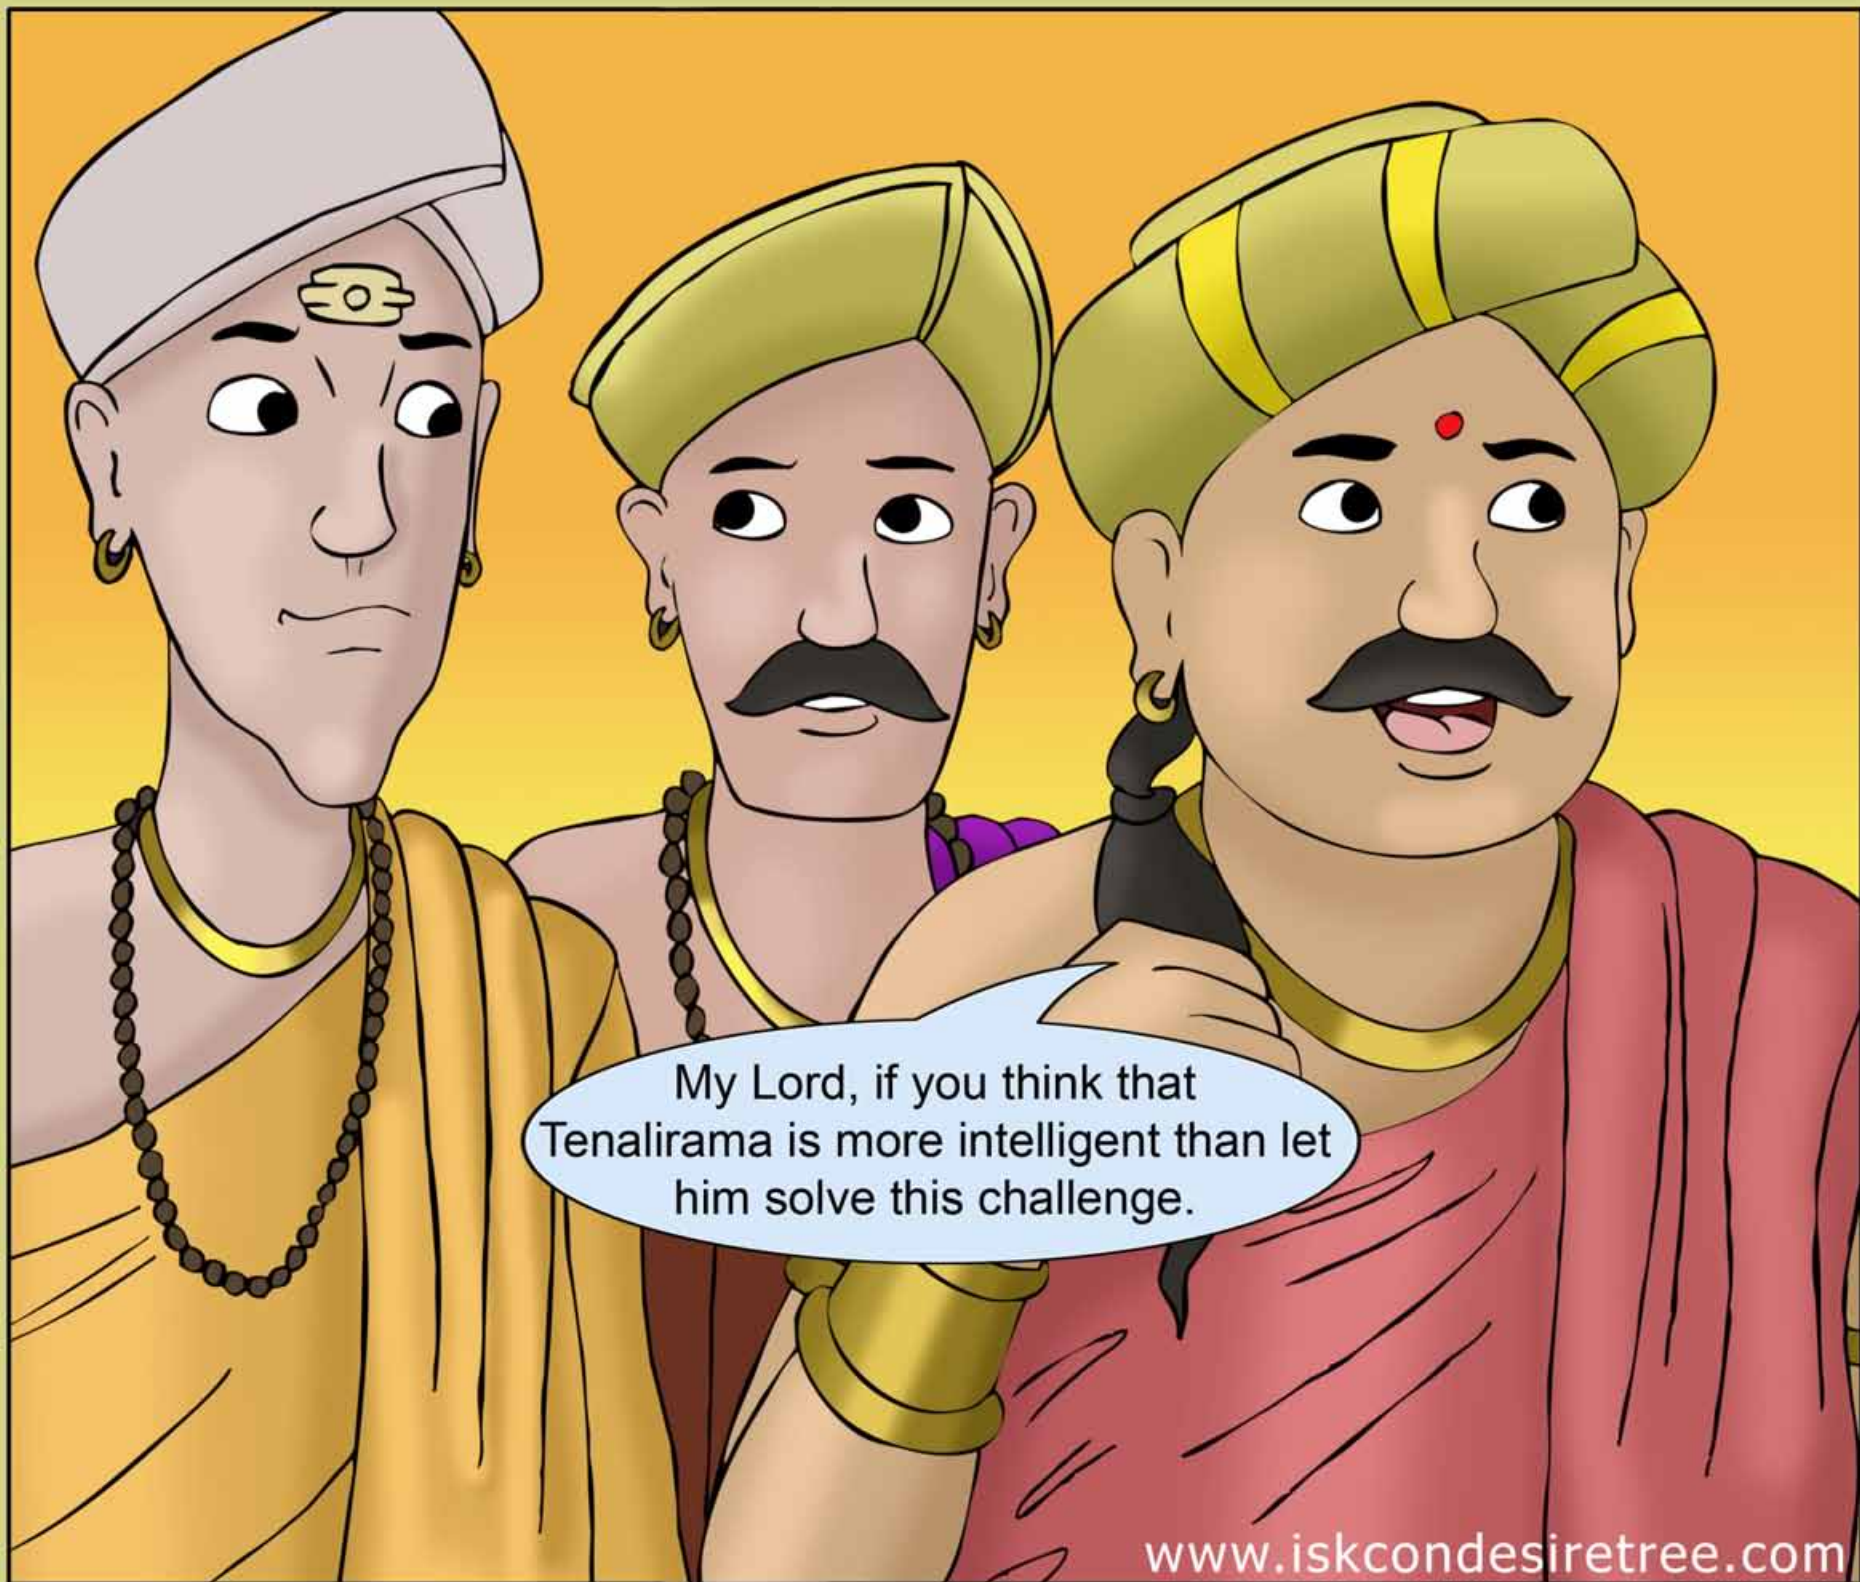

Why are
you taking so
much time?

After some time...

None of you have
a solution?

Tenalirama, can you give me two feet of smoke of this incense stick?

Yes my Lord

Tenalirama called his worker and said something...

After some time, the worker gave Tenalirama a two feet long glass pipe.

Tenalirama put the pipe on incense stick smoke. When the smoke reached the upper end of the glass pipe, immediately he put stoppers at both the ends.

Here is two feet
of the smoke from the
incense stick

Tenalirama has
proved his intelligence
